

## Full Height Single Lane Turnstile

**ASCION**  
Enterprise

Choosing Toshi turnstile to obtain for the site with high security, pay attention to the full-height designs. As the name suggests, these barrier devices are as high as an adult man - from 1.9 m. Such structures are the best option for installation at stadiums, financial facilities, warehouses, enterprises with increased level of secrecy, nuclear power plants, airports etc. The full-height turnstile ensures access of pedestrians one after another in the same way as the waist-high turnstiles. Its traffic flow capacity is rather high - 20 pers. /min.
